

Van Accessible Electric Vehicle Parking and Charging Design

You may be eligible to participate if:

- You are 18 years of age or older **AND**
- You use a manual or powered wheelchair, or a mobility scooter at least 3 days per week **AND**
- You transport the wheelchair or scooter in a private vehicle.

The purpose of this research study is to...

The purpose of this research study is to get your feedback on a preliminary design for a new van accessible parking and charging station for electric vehicles. In this research we will identify your thoughts and opinions about the design and determine what if any design changes need to be made.

If you decide to participate, you will be asked to...

Complete a demographics questionnaire and participate in a group interview to provide your opinions on the design of the parking/charging system. You also will be asked what kinds of features you like or dislike, and what needs to be improved.

Principal Investigator: Jonathan Duvall, PhD

If you are interested in participating or learning more about the study, please contact our Clinical Coordinators, Nikitha Deepak at (412) 822-3669 or (412) 822-3700.
